Milan, IT | +39 3894847648 | 21 Apr 2003 | [marco1.zamboni@mail.polimi.it](mailto:marco1.zamboni@mail.polimi.it) | [LinkedIn](#)

## EDUCATION

### Politecnico di Milano

Milan, IT

#### BSc in Management Engineering

9/2022 - Present

- 28/30 (GPA 3.9)
- Relevant Courses: Calculus I - II - III, Probability and Statistics, Fundamentals of Computer Science and Programming, Physics and Thermodynamics, Operation Research, Microeconomics, Fundamental of Automatic Control, Manufacturing and Quality Control.

### TU Delft

Delft, NL

#### Exchange semester

09/2024 – 02/2025

- Relevant Courses: Data Science for Finance, Statistical Analysis of Choice Behaviour, Economics and Finance, Complex Systems Engineering, Logistic and Supply Chain Innovations.

## WORK EXPERIENCE

### Do & Co

Munich, DE | Abu Dhabi, UAE | Monza, IT

#### VIP Hospitality Service

09/2021 - Present

- Part of the team to ensure smooth logistics and catering operations during Formula 1 races, UEFA Champions League matches, and NFL events worldwide.

### Politecnico di Milano

Milan, IT

#### Academic Tutoring

09/2023 - Present

Successfully guided students of Politecnico di Milano through academical courses with a 100% success rate. Courses such as:

- Calculus I and II
- Physics and Thermodynamics
- Fundamentals of Computer Science and Programming (C)

## RESEARCH PROJECTS

- |      |                                                                                                                                                          |
|------|----------------------------------------------------------------------------------------------------------------------------------------------------------|
| 2025 | <a href="#">Recovering the Risk-Neutral Density Across Maturities: A Probabilistic and Computational Application of the Breeden–Litzenberger Result.</a> |
| 2025 | <a href="#">Probability Theory Book.</a>                                                                                                                 |

## AWARDS

- |      |                                                                                                                  |
|------|------------------------------------------------------------------------------------------------------------------|
| 2024 | Awarded with the “Best Freshmen in Industrial and Information Engineering” scholarship by Politecnico di Milano. |
| 2022 | Awarded with the “Gianluca Spina scholarship” by Politecnico di Milano and Gianluca Spina Association            |

## EXTRACURRICULAR ACTIVITY

- |      |                                                                                                               |
|------|---------------------------------------------------------------------------------------------------------------|
| 2023 | <b>Stanford University</b> – Special Relativity and Classical Field Theory course (held by Dott. L. Susskind) |
| 2023 | <b>MIT</b> – General Relativity course (held by Dott. S. Houghes)                                             |
| 2022 | <b>STMicroelectronics</b> – “Semiconduttori: Diodi, MOSFET, IoT, MEMS”                                        |

Ongoing: Community service at St. Pius X Church

## SKILLS

**Programming Languages:** Python, C, C++, MATLAB

**Languages:** English (TOEIC 925/990), Italian (Native)
